BETHANY HOSPITAL MYSTERY.

J. A. Carlson, an Indian Territory Stockman, Sent to the Hospital by Two Strange Men. an supposed to be John A. Carlson, can from the Indian Territory, die

at Bethany hospital at an early hour yes-terday morning. There is something of a mystery surrounding the man and his sudmystery surrounding the man and his sudden death.

Shortly after midnight Wednesday night a hack drove up to the hospital, and the driver informed the superintendent that he had a very sick man that had been sent to the hospital. The man was taken into the hospital and placed in a ward. When the driver was asked who the patient was, he replied that he did not know. He said that two men put him in the cab at the Union depot and paid for hauling him to the hospital. The stranger lived only a few minutes after reaching the place. He was dying when taken from the cab, but revived enough to talk. He told Mrs. Anna King, superintendent of the hospital, that his same was John A. Carlson, When questioned concerning his home and relatives he only said that he was from the Indian Territory.

In his coat was found a stockman's pass over the Union Pacific railroad, which was issued in favor of J. A. Carlison. The body was removed to Whisner's morgue on Minnesota avenue yesterday morning, where a post mortem examination was made, it was discovered that death was due to a complication of diseases. Consumption and infiammation of the stomach were the principal allments. Dr. Eager, who assisted in the examination, stated that the man's body was in a state of decomposition several days before he died.

The authorities are at work on the case, and will try to locate some of the relatives of the deceased. An effort is also being made to learn who the mon were that hired the hack driver to take Carlson to the hospital. The tenants at the hospital failed to get the number of the lack, but give a fairly good description of the driver. From all indications Carlson was about 5 years of age. The body will be held pending the investigation. his coat was found a stockman's pass

Burglar Duane Fell Down, but the Police Improved the Opportunity and Hickman Made a Hit.

The police are still piling up evidence against Robert Duane, the burglar, who was arrested through the efforts of Inspector John Hayes a week and a half ago. Yesterday a strong link in the chain against Duane was furnished by himself. The police played a secondary part, but they played it well. Duane, his attorney, A. H. Cobb. of Kansas City, Kas., and Mrs Minnie McKim, Duane's former landlady, who has greatly aided the police in turning up evidence against Duane, were the star performets in the little comedy which was enacted. Ed Hickman, secretary to Chief Vallins, played the part of the hero. He was almost compelled to respond to an

was almost compelled to respond to an encore.

On the Saturday before Duane was arrested he left a lump of melted gold and a lump of melted gold and a lump of melted silver at C. D. Altman's jewelry store at 707 Main street. The metal was valued at about \$22, and as Mr. Altman was not at the store Duane left it, saying he would be back Monday. Monday he was in jail, Yesterday, Duane, thinking the coast was clear, wrote out in his cell at the county jail an order for the gold and silver and gave it to Mrs. McKim, who carries his meals to him each day. He instructed her to present the order to Altman and take the metal home with her. It is believed Mrs. McKim has, at the solicitation of the police, been trying to get out of Duane, ever since his arrest, what he did with the gold and silver he secured on his many foraging trips about Kansas City. She was unsuccessful until yesterday, when he relented and gave her the order on Altman.

After receiving the order, Mrs. McKim After receiving the order, Mrs. McKim

he relented and gave her the order on Altman.

After receiving the order, Mrs. McKim went to Altman's store, but was refused the metal. She left, saying she would return in the afternoon, taking the order with her. Altman, when he saw Duane's name to the order, at once realized that the metal rightly belonged in the hands of the police, and sent it to headquarters. He says he had never before suspicioned that it was Duane who had left the metal at his store. Inspector Hayes told Altman to telephone to him at once when Mrs. McKim returned in the afternoon, as he wanted to have a detective at the store, apprehend the woman and secure the order, as it would prove good evidence against Duane.

But Duane was cunning. When he learned that Mrs. McKim had been refused the metal, he took the order away from her and turned it over to A. H. Cobb, his attorney. Cobb went to Altman's store about 30 clock to present the order and scure the gold and silver. When he gave the order to Altman, the latter stepped to the front of the store as if to secure it from the safe, but instead he told a clerk to telephone the police at once for an officer. When the message was received no detectives were in sight. Inspector Hayes called in Chief Vallins' secretary. Ed Hickman, He was told to go at once to Altman's and secure an order bearing Duane's name and a man whom Altman would point out to him. He knew nothing of the details of the case. When Hickman arrived at the store, Mr. Altman gave him the Duane order and pointed to Cobb, who was standing by When Hickman arrived at the store, Mr. Altman gave him the Juane order and pointed to Cobb, who was standing by When Hickman touched Cobb's arm and told him to "come along," Cob resented it and made a victous swing at Hickman with his fist. He was released after a good lecture from the chief.

Why will you suffer? Why will you die? THE CREAT TURKISH RHEUMATIC CURE. A SURE AND POSITIVE CURE FOR

DR. HENDERSON.

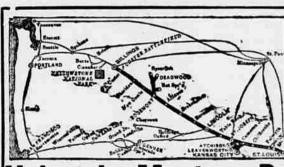

Ordinary rheumatism is caused by exposure to damp and cold weather, sudden chilis or exposure to drafts of cold air when the body is overheated and wet with sweat, especially when there is a depression in health, bad assimilation, etc. This causes a derangement of the kidneys and other organs—they fail to do their duty—and the result is a polson is left in the blood, which becomes deposited in the joints, tendons, sheaths of muscles, etc. Now, a successful treatment must be such that it will disolve these poisons and climinate them from the system, and that is examily what this treatment does—a cure cannot be made any other way.

Remedies innumerable have been vaunted for the cure of rheumatism, but none were specific until the discovery of This Grar Tuxism RHERMATIC CURE which is undoubtedly one of the greatest discoveries in the annals of medicine. The cure is so sure and success so certain that I guarantee a cure.

The above is the unad wonderful action of the treatment, as hundreds of letters in my possession will show, and a test will prove. In fact, too much cannot be add in its praise, as it is not humbing and it is not a cure for any disease except rheumatism. State your case and send for terms. Send stamps for including the first of the free from the first, and checks the few or rapidity—even one does will give relief from the first, and checks the few or rapidity—even one does will give relief and complete or free wor swell give decided relief.
